CAREER OBJECTIVE

To apply my expertise in data science and software development to create innovative solutions and drive impactful results in the tech industry.

EDUCATION

B.Tech – Computer Science&Engineering (Data Science) 2021-2025

-Bharat Institute of Engineering and Technology(BIET)

Senior Secondary(XII)Telangana State Board of Intermediate Education 2019-2021

-Narayana Junior College

secondary school certificate(SSC) 2018-2019

-Sri Kakatiya Talent School

TECHNICAL SKILLS

programming language: Python

Web Development: HTML ,CSS ,Bootstrap

Database:oracle

PROJECTS

Title: Secure File Sharing System Using Data Mining

Technologies: Flask(Python),HTML, CSS, Anomaly Detection, QR Code–based access, Time-based unique keys.

Role: Backend Developer & Application Logic Contributor

Built a secure Flask-based file sharing system using QR code authentication, time-limited access keys, and anomaly detection with Pandas and machine learning techniques.

Title: Digital Image Tamper Detection Using CNN

Technologies :Python ,TensorFlow, OpenCV ,NumPy, Pandas

Role: Deep Learning Project Contributor

Image tampering such as copy-move and splicing is commonly used to manipulate images. These manipulations are often difficult to detect with the human eye, so this project uses CNN models to automatically identify tampered images.

TRAININGS AND CERTIFICATIONS:

- Data Science with Python – Eduviz (Startup India Collaboration) - (March 2025 – April 2025)
- Accenture North America – Data Analytics and Visualization (Forage)
- Tata Group – Data Visualization Program (Forage)
- PwC Switzerland – Power BI Job Simulation (Forage)
- Deloitte – Data Analytics Job Simulation (Forage)
